2	<p>In 7, III. e is stated:</p> <p>"Certified statement of financial capacity of the of the lead consultant and all associated partners showing the necessary annual turnover of more than 1.500.000 EUR (Balance sheet, statement of turnover or annual tax statement or profit and loss account all of the last three years)."</p> <p>Could you please confirm that the bidding consultant including its associated partners is requested to show an accumulated minimum annual turnover of 1.500.000 EUR? Or do you request that the lead company alone should show this minimum annual turnover?</p>	<p>It depends on the structure chosen by the bidders:</p> <p>In the case of a consortium of two or more consulting firms, the annual turnover of the consortium is regarded as an accumulative figure. Combined, the consortium should show a minimum annual turnover of EUR 1,500,000. It is therefore necessary for each member to hand in their balance sheet, statement of turnover or annual tax statement or profit and loss account of the last three years.</p> <p>In case of a fronting / subcontracting structure, the lead consultant is required to show an annual turnover of more than EUR 1,500,000 individually. Subcontractors are not required to hand in their financial documentation.</p>
